CORE STACK

React, TypeScript, JavaScript, Next.js, Vue.js, React Native
Node.js, PHP, Blade, REST APIs, MySQL, MongoDB
npm, package management, GitLab, Docker, AWS, GitHub, Linux, Jira, Agile/Scrum

TOP SKILLS

- Frontend
- Debugging
- Problem Solving
- Responsive UI
- Mobile First
- API Integration
- Performance
- Fast Learner
- AI-assisted workflow
- npm

LANGUAGES

English, Urdu, Punjabi - Native
Hindi - Professional
Spanish - Intermediate
Arabic and Persian - Working knowledge

AZHAR ARSHAD

Mid-Level Front-End Developer | Full Stack Developer

React - TypeScript - JavaScript - Next.js - Vue.js - Node.js - PHP/Blade - npm

Professional Profile

Mid-level Front-End / Full Stack Developer with 5+ years of software development experience and 15+ years of international professional experience across Spain, the United Kingdom and Pakistan. Experienced in building and maintaining mobile-first, responsive, high-performance web applications for telecom, education and digital entertainment platforms. Strong hands-on stack includes React, TypeScript, JavaScript, Next.js, Vue.js, Node.js, PHP, Blade, GitLab, Docker, AWS, npm and modern JavaScript package ecosystems. Comfortable using AI-assisted development tools to support debugging, deployment troubleshooting, documentation and delivery while maintaining strong code ownership and quality standards.

Impact Highlights

- Built a landing page generator to speed up delivery of reusable, mobile-first landing pages and subscription experiences.
- Worked with 20+ telecom operators and digital service partners on commercial web applications and subscription flows.
- Supported products used by millions of users, focusing on stable releases, production debugging and reliable user journeys.
- Improved performance and loading speed through frontend optimisation, code cleanup, asset handling and Core Web Vitals awareness.
- Reduced recurring bugs by refactoring old code, improving reusable components and resolving production issues across multiple projects.
- Migrated and maintained legacy codebases using JavaScript, PHP, Blade, React and Vue.js while keeping business-critical flows stable.
- Used npm-based workflows to manage packages, dependencies, builds and frontend tooling across modern JavaScript projects.

Professional Experience

Mondia Group - Front-End Developer

July 2022 - Present | Madrid, Spain | Telecom, entertainment and subscription platforms

- Develop and maintain mobile-first landing pages, subscription flows and responsive web applications for telecom and entertainment clients across Europe.
- Build and contribute to a landing page generator using reusable frontend patterns to accelerate delivery and improve consistency across campaigns.
- Create reusable components with React, TypeScript, JavaScript, Vue.js, PHP and Blade, improving maintainability and reducing duplicated work.
- Integrate REST APIs, analytics events, business logic and third-party services into production landing pages and customer journeys.
- Use npm and modern JavaScript package workflows to manage dependencies, scripts, builds and frontend tooling.
- Use AI-assisted tools for debugging support, deployment troubleshooting, code explanation and documentation while applying professional review and testing.
- Optimise frontend performance, page loading speed, responsiveness and cross-browser compatibility for mobile-first traffic.
- Debug production issues, reduce recurring defects and support live telecom services used by large user bases.
- Migrate and modernise older code while preserving existing business flows, tracking requirements and campaign behaviour.
- Collaborate with product managers, designers, backend engineers and QA teams using GitLab, Docker, AWS and Agile/Scrum workflows.

React	TypeScript	JavaScript	Vue.js
PHP	Blade	REST APIs	GitLab
Docker	AWS	npm	AI-assisted workflow
Mobile First	Performance	Debugging	CI/CD

TARGET ROLES

Front-End Developer
React Developer
Full Stack Developer
JavaScript / TypeScript Developer
Software Engineer

EDUCATION

Full Stack Developer Bootcamp (700h) - Wild Code School, Madrid
Bachelor of Commerce - University of the Punjab
Java Project Management with Maven - Diploma/Training
Additional training: AWS, MongoDB, PHP, Scrum, AI/ML and Web Servers

IT SKILLS

React, TypeScript, JavaScript ES6+, Next.js, Vue.js, Node.js, PHP, Blade, REST APIs, npm, package management, GitLab CI/CD, Docker, AWS, responsive design, mobile-first, Core Web Vitals, performance optimisation, cross-browser compatibility, debugging, reusable components, Agile Scrum, AI-assisted development and deployment support.

STRENGTHS

Frontend engineering with practical full stack capability.
Strong production debugging and problem-solving mindset.
Experienced in maintaining and modernising legacy codebases.
Comfortable learning new tools and contributing quickly.

AZHAR ARSHAD

Mid-Level Front-End Developer | Full Stack Developer

React - TypeScript - JavaScript - Next.js - Vue.js - Node.js - PHP/Blade - npm

IE Business School - Full Stack Developer (FTC)

January 2022 - July 2022 | Madrid, Spain | Digital learning and publishing technology

- Maintained and enhanced existing React, Vue.js and JavaScript applications used for digital learning content and academic publishing workflows.
- Implemented fixes, UI improvements and production updates while collaborating with production and publishing teams.
- Supported stable delivery using GitLab, Docker and AWS, with a focus on maintainability and reliable releases.
- Helped improve existing systems instead of building new projects from scratch, ensuring continuity for students, professors and external clients.

React	Vue.js	JavaScript	GitLab
Docker	AWS	Maintenance	Production Support

Freelance Web / Full Stack Developer

July 2021 - Present | Madrid, Spain | Part-time and personal projects

- Build and maintain responsive web interfaces and personal software projects using React, JavaScript, TypeScript and modern frontend tooling.
- Continuously develop full stack capability through Node.js, PHP, REST APIs, databases, npm workflows and deployment practices.

Earlier Career - Sales, Administration, Video Production and Photography

2006 - 2020 | United Kingdom and Pakistan

Built strong communication, client-facing, analytical and creative problem-solving skills before transitioning into professional software development.

Selected Projects

Landing Page Generator

Built and maintained reusable mobile-first landing page patterns for subscription campaigns, improving speed, consistency and maintainability across telecom projects.

[React](#) - [TypeScript](#) - [JavaScript](#) - [PHP](#) - [Blade](#) - [GitLab](#) - [npm](#)

Subscription Platform Frontend

Supported production subscription flows including API integration, analytics events, status handling, fallback journeys, debugging and cross-browser optimisation.

[JavaScript](#) - [REST APIs](#) - [GitLab](#) - [Docker](#) - [AWS](#) - [Performance](#) - [AI-assisted troubleshooting](#)

Kids Learning App

Personal React Native project with bilingual UI, voice interaction, sound effects, animations, gamification and child-friendly responsive design.

[React Native](#) - [Expo](#) - [TypeScript](#) - [Audio](#) - [Animations](#)

Technical Skills

Daily Stack	React, TypeScript, JavaScript, PHP, Blade, GitLab, Docker, AWS, Node.js, Next.js, npm
Frontend	React, Vue.js, Next.js, React Native, HTML5, CSS3, SCSS, Bootstrap, responsive design, mobile-first development
Backend	Node.js, PHP, Blade, REST APIs, MySQL, MongoDB, API integration, server-side rendering concepts
Tooling	npm scripts, package management, dependency troubleshooting, Git workflows, Docker, AWS, CI/CD awareness
Quality	Debugging, production support, performance optimisation, Core Web Vitals, cross-browser compatibility, code refactoring
AI Workflow	AI-assisted debugging, documentation, code explanation and deployment troubleshooting with human review
